<i>Green Archives</i>	Edited by Terry Baxter	In email received from T. Baxter 02/23/12: "This publication is just at the edge of my radar. I don't have any new information. <i>Management of Local Government Records</i>	John Slate and Kaye Lanning Minchew	In email from J. Slate 02/21/12: "We did incorporate all recommended changes in our draft outline, and particularly with electronic records we would be very open to working with one or more experts to produce a chapter on that subject that would be useful and not date too badly (thought that's hard to guarantee, considering the pace of technologies). I doubt either of us can produce a sample chapter prior to your meeting, though we definitely expect to have something ready in the next couple of months." [Proposal reviewed by Pubs Bd and returned with follow-up questions to authors July 2010. Authors responded to questions. Responses to be reviewed by Bd during DC 2010.]				Geoff Huth
<i>Managing Archives</i>	Michael Kurtz	<p>From email from M. Kurtz 02/22/12: " At this point I don't intend to pursue the NARA case study idea for a variety of reasons. However, I am definitely considering another management text. It could be along the lines of updating my SAA text as you captured in your message. But I have also been exploring another idea which may or may not be appealing to the Publications Board. I am in the early stages of discussing with a colleague from the library world and one from the museum community about writing a book analyzing the leadership and management issues confronting all three categories of cultural heritage organizations. I am making an assumption at this point that the issues while different in some respects have a basic commonality.. . serious discussions with my colleagues about a joint venture won't begin until this summer"</p> <p>[In an email to PW in Oc. 2010, author discussed idea for updating his volume in AFS II as well as preparing a series of case studies. Would like to submit proposal after he retires from NARA in Feb. 2011.]</p>
