**Staff Q2 (October – December 2025): Operations Report
(Prepared by: Astoria Edwards, Governance Director)**

The second quarter of FY26 demonstrated strong revenue performance in several key funds, continued growth in average gift size, and a stabilizing donor participation pattern following early declines observed in Q1. Total giving in Q2 reflects the influence of seasonal generosity in the December giving cycle, with notable increases across core funds, including the Catalyst Fund, Mosaic Fund, and NDRFA (National Disaster Recovery Fund for Archives).

While donor volume remains below FY25 levels, Q2's performance indicates improving engagement as we entered the mid-year period.

Fiscal Performance Overview (Q2 FY26)

Across all funds, Q2 FY26 giving totaled:

- October: \$2,750
- November: \$3,320
- December: \$10,552

December produced the strongest performance of the quarter across nearly all funds, with particularly notable surges in the Catalyst and NDRFA funds.

Year-to-Date Snapshot (FY26 YTD)

- Total FY26 revenue to date: \$43,523.09
- Total number of donations: 475
- Average gift size: \$91.63, the highest in three years and a meaningful indicator of increasing per donor value despite overall lower participation.

Fund-Level Performance (Q2)

- Catalyst Fund: Steady growth across the quarter culminating in a strong December spike.
- NDRFA: Significant year-end performance driven by December giving.

- Mosaic Fund: Rebounded from a quieter October with strong giving in November and December.
- Other Designated Funds (Henry, Pinkett, Peterson, Ham, Hamer Kegan): Activity remained modest but consistent, reflecting typical small-dollar patterns. December accounted for most of their quarterly revenue.

Donor Activity Trends

- Year-to-date donor participation is 26.6% lower than FY25.
- Annual donor counts:
 - FY26: 475
 - FY25: 647
 - FY24: 549
- Despite lower participation, the average gift size is at a three-year high, indicating deeper engagement among current donors:
 - FY26: \$91.63
 - FY25: \$72.80
 - FY24: \$72.53

Q2's stronger gift activity, particularly in December, suggests a positive trajectory as we move into Q3.
