As of March 31, SAA membership totaled 5,921, a decrease of 55 from the same time last year and 312 below our all-time high of 6,233 in November 2014. Individual membership less students totals 4,526; our all-time high was 4,608 in February 2015. Declines in the ID1, ID2, ID3, and ID4 categories totaled 126; increases in the ID5, ID6, ID7, and ID8 categories totaled 103. We look forward to working within our new database to determine accurate retention rates. We are pleased by the increase in Institutional members, which has been a focus of our development efforts. See the table below for details by membership category, March 2018 to March 2019.

As noted in the Treasurer’s report (VI-C-FY19FinRev), Membership revenues have held very close to our “no growth” budget projections and have certainly benefited from the stepped dues increase and creation of the ID8 category. We will continue to monitor shifts in membership, particularly in light of expiration of the three-year stepped dues increase implemented on July 1, 2016.

April-end membership figures will be distributed at the Council meeting.
