Quarterly Membership Report  
  
(Prepared by Carlos Salgado)**

The provided charts illustrate membership changes across various membership categories from June 2023 to June 2024, and a detailed month-by-month comparison from April to June 2024. Here's a comprehensive summary of the data:

**Chart 1: Yearly Membership Change (June 2023 to June 2024)**

Between June 2023 and June 2024, total membership increased from 5,474 to 5,497, representing a net gain of 23 members or a growth rate of 0.004%. The growth was primarily driven by increases in individual and student memberships. Individual memberships rose slightly by 4 members, a marginal increase of 0.001%, while student memberships saw a more substantial rise of 29 members, or 0.029%. Institutional memberships also experienced a modest increase of 3 members, equating to a 0.005% growth.

In contrast, associate and complimentary memberships declined during this period. Associate memberships decreased by 7 members, reflecting a 0.036% drop. Complimentary memberships saw a more significant reduction, with a loss of 6 members, marking a 0.316% decrease. Despite these declines, the overall membership growth was positive due to the increases in other categories.
