(Prepared by Staff Members Nancy Beaumont, Matt Black, Teresa Brinati, and Anne Hartman)

BACKGROUND

At its August 12-13, 2013, meeting the SAA Council reviewed the final recommendations of the Communications Task Force (0813-1-III-B), created in August 2012 to advise the Council on “practical ways to enhance SAA’s communications with a focus on three areas: intended audiences, content/messages, and tools/channels,” and unanimously adopted the following motion:

THAT the Council receives with gratitude the recommendations of the Communications Task Force,

THAT the Communications Task Force be disbanded with thanks, and

THAT the Executive Director refer the recommendations to pertinent bodies and forums for further input and implementation as appropriate and commensurate with SAA’s strategic planning tasks, and update the Council on the status of implementation at each Council meeting.

UPDATES

Beaumont, Black, Brinati, and Hartman “charted” the Task Force recommendations and have met periodically to review progress toward achieving them. See pages 2-6 for “Status of Implementation of Council-Adopted Recommendations of Communications Task Force.” **Updates since the August 2015 Council meeting appear in red.** This chart will be updated for each Council meeting.

Status of Implementation of Council-Adopted Recommendations of Communications Task Force (0813-1-III-B-CommTF)

Recommendation	Priority	Assigned to	Status/Notes (as of 0814)
Archival Outlook [1A, 1B]			
	H		
Implement opt-in option for receipt of electronic only.		Black	Projected implementation is October 2014 January 2016. (See next.)
Design electronic version so that each article and section is individually accessible and/or downloadable.		Brinati, Hartman, Black	Digital edition of <i>AO</i> launched with Jan/Feb 2014 issue using Blue Toad Publishing tools. All six issues from 2013 retro-converted in February. Digital edition allows readers to share an entire issue or specific article via email or social media. Readers can access text-only versions of articles, which also can be shared or printed. Other features: zoom-in tool, option to download a PDF version of issue, option to add notes or mark “favorite” articles.
End embargo.		Brinati, Salgado	Embargo ended with implementation of digital edition of Jan/Feb 2014 issue. (Staff will continue to monitor extent to which end of embargo may [or may not] have an impact on membership.)
In the Loop [2]			
	H		
Reevaluate style and content to focus on brevity and clarity. Specifically:		Brinati, Black, Hartman	<p>We continue to focus on brevity and clarity. In addition a new template, which debuted on April 30, provides for a better reading experience: larger text and increased spacing for those reading on desktop or laptop computers and a single-column format that allows readers to easily read and navigate on smaller smartphone screens. Ads now appear between sections rather than on the side. A handy navigation bar at the top allows readers to jump to specific sections and links are available throughout to bring them back to the top. Included are buttons to share <i>ITL</i> on social media.</p> <p>We moved to a new email service for <i>ITL</i> – Mail Chimp – which gives us detailed analytics that we are using to continue to improve and enhance <i>ITL</i> based on member preferences. We have tested optimal times to send out the newsletter and have found that it is best to send the newsletter first thing in the morning.</p>
<ul style="list-style-type: none"> • Employ “view more” and “view less” to ensure concise visual flow. 			We continue to make blurbs as concise as possible and provide links to further information.
<ul style="list-style-type: none"> • Consider less conversational, more journalistic style. 			Ongoing.

<ul style="list-style-type: none"> Discontinue “Miscellaneous” section. If item doesn’t fit in pre-defined category, either create broader or newer categories or re-evaluate if item is of sufficient importance. 			Discontinued in August 2013.
<ul style="list-style-type: none"> Rotate order of sections to distribute attention each receives. Consider “top story” section above others. 			New template facilitates rotation of sections and includes “top story.” Top stories have bigger headlines and, when feasible, images to complement text and draw readers’ attention. Sections containing the most pressing information are moved toward the top of the newsletter.
<ul style="list-style-type: none"> Move content from <i>ITL</i> to website or official blog and provide links via <i>ITL</i> to fuller content/story. 			Already being done. Also added to SAA website an archive of back issues of <i>ITL</i> .
SAA Website [3]	H/M		
“Tweak now, overhaul soon.”			Many minor “tweaks” are ongoing. Overhaul has begun!
<ul style="list-style-type: none"> Resolve dual login problem. 	H	Black	Completed April 2015.
<ul style="list-style-type: none"> Reorganize content for basic usability: <ul style="list-style-type: none"> Increase visibility of Search box. Increase visibility of social media links. Move most frequently used content to top of home page. 	H	Black	A major point not listed here is to review and improve the overall menu structure of site content, which is complete. Usability was also at the forefront of our work with the designer for look and feel.
<ul style="list-style-type: none"> As longer-term priority: Reevaluate dissemination of website content via Global Newsfeed and other RSS channels. 	M	Black	Redesign will move us forward on all of these issues. Major focus is on improving the site in terms of social- and mobile-friendliness.
<ul style="list-style-type: none"> - Work to increase awareness of newsfeed. 			Included in redesign.
<ul style="list-style-type: none"> - Direct content to blog featuring news content. 			Included in redesign.
<ul style="list-style-type: none"> - Be more judicious in use of automatic updating of newsfeed; should not include every S/RT admin update, but limit to release of “major documents from SAA office.” 			Site redesign will improve segmentation and accessibility of multiple feeds. We are revising our social media procedures and introducing new tools to improve efficiency and effectiveness.
<ul style="list-style-type: none"> - Each “major document” release should include descriptive title metadata. 			Included in redesign.
<ul style="list-style-type: none"> Improve user experience for S/RT lists and microsites. 		Black	
<ul style="list-style-type: none"> - Make “significantly easier to find and access,” perhaps by putting direct links to landing pages in top-level site menu. 			Underway. Phase 1, new “nav bar” for microsites, was implemented in January 2014. Phase 2, to streamline navigation to microsites from “top” navigation, was implemented in June 2014. Further attention will be given to this with redesign.

- Increase usability of content creation modules for component leaders.		Black	Ongoing. One small step already taken is an admin menu that includes link to Drupal Manual on every microsite page.
- Encourage appropriate use of microsities. (See App E: Communication Strategy Recommendations for SAA Sections and Roundtables.)		Beaumont Liaisons	Ongoing. Included Appendix E in 2014-2015 Leader Manual. Staff (particularly Editorial/Production Coordinator Anne Hartman) participated in significantly more tweeting from Annual Meeting than in years past, resulting in heightened awareness of, for example, pop-up session voting and the conference survey). Many Program Committee members tweeted from sessions to which they were liaisons.

<ul style="list-style-type: none"> Establish timetable for revisiting functionality and reevaluating usefulness of these three platforms: <ul style="list-style-type: none"> Are these communication channels assets to SAA?
