

February RMS Steering Committee Meeting
February 13, 2020

Here are some updates on our work:

- Our annual meeting in Chicago will include breakout sessions on topics including RIM education in SAA, electronic records, RM outreach, and best practices. We'll also have a lightning talk panel of Records Managers in library settings.
- RIM month is coming in April. Possible plans include guidance on calculating storage costs (both paper and electronic), listserv discussions, and Twitter chats.
- We're looking to incorporate standards and best practices for RM into our microsite.
- We're preparing a draft proposal for an RIM certificate program that SAA's Education Committee will review during its March meeting.
