

**May RMS Steering Committee Meeting**  
**May 14, 2020**

Here are updates on our work finishing up Records and Information Management month and during the first part of May:

- We posted a toolkit of RM resources and best practices to [our microsite](#).
- We held a joint Twitter chat with SNAP.
- We hosted a coffee chat to talk about work during the pandemic. We're planning another coffee chat in June, so stayed tuned for details.
- We have a proposal for an SAA RIM certificate program in front of the Committee on Education, which reported our request to [SAA Council](#). No action was taken in last week's Council meeting.
