

June RMS Steering Committee Meeting
June 11, 2020

Here are updates on our work during the past month:

- I resumed the mini lit reviews [on the blog](#) to investigate the intersections between archives and records management.
- We're planning a coffee chat in June.
- The Committee on Education is beginning to take a look at existing SAA records management courses, as a first step in assessing what additional courses are needed.
- Our annual section ballot will be distributed through the SAA office.
- We're working out the details for our annual meeting in a virtual environment in August. In the meantime, you can find out about the topics of our lightning panel [on our blog](#).
