	Individual members	Please note that the attendance numbers prior to the 2003 Annual Meeting were, I believe, inclusive of all attendees (i.e., exhibitors, sponsors, comped speakers, etc.). Since then we have published the number representing paid attendees.	Used index in program which only included numbered education sessions. Missing 2002 program	According to program, education sessions include research forum, student poster sessions, traditional sessions, and plenary sessions. For our purposes, only the numbered education sessions were counted.	Programs have been inconsistent through the years as to what constituted a special event. Earlier programs included events, such as regional mixers, that were later dropped from the program.		The years with 4 plenaries were joint meetings with NAGARA and COSA					Used onsite programs. Missing 1999, 2000 and 2003	Does not include section and rountable meetings as they are counted elsewhere.			
					Includes regional summit, business archives colloquium, standards portal, AMTF, and additional forums, all attendees recetion, awards ceremony, archives in the movies, book signings, open forums							Office hours tables were counted in total if listed in with exhibitors
