

Snazzy Title for *Archival Accessioning*

Chris,

Over the holiday break, I came up with a title that may be a little more exciting than *Archival Accessioning*. Bear with me...

The cover design could include an overstuffed box with a large sticky note on it. The sticky note says "Accession This" on it in bold letters.

Accession This: Practical Archival Accessioning is my proposed title. What do you think?

Hi Audra,

I like it! It is definitely moving in the right direction!!!

We might want to think about having two versions of the word accession—it seems a bit repetitive. So how about if we keep the "Accession This!" part and look toward a revised version of the second part? Should we both give that some thought?

I thought about that, too. Yes, let's keep thinking about it – I welcome the board's thoughts on this as things move along, too.
