

**SAA Committee on Public Policy  
Conference Call  
December 4, 2017**

**Meeting Notes**

**Legislative Agenda**

Discussed the general parameters of the legislative agenda & intent to serve as both a guide for concrete advocacy actions by SAA (i.e.. Council), as well as serve as a guide for individual action by sections or members. It should include things we know will be issues, as well as issues we think might come into play, with the goal of building towards at least one significant legislative initiative (i.e. a new funding PAHR-like effort).

Discussed suggestion provided by sections as to which ones we thought were viable or worth exploring further, either as priorities for SAA as an organization or which might be better referred to individuals/sections.

**Net Neutrality**

Update status of letter to FCC Chair.
