

JUST DO IT
NEVER GIVE UP

CUSTODIAL NEGLECT

Custodial neglect, or dissociation, results when information is lost. This includes when an item is lost, information about an item is lost, or materials are not properly cared for.

MITIGATING THE THREAT:

- ◆ Be aware of your collections and their needs! Ensure that collections care practices are current and regularly reviewed.
- ◆ Make sure identifying labels and tags are clearly marked.
- ◆ Have policies and procedures in place for tracking collections to prevent loss.
