Atlanta, Georgia
August 3, 2016
2:00 – 3:30 p.m.

I. Introductions (Rachel Chatalbash)
   ● All present introduced themselves and their regional.

II. Incoming and outgoing Steering Committee (Jennifer Brannock)
   ● Jennifer Brannock introduced the new Steering Committee members and thanked those who stepped down. In addition, she thanked Rachel Chatalbash for her work creating RAAC and getting it off the ground.

III. Subcommittee reports
   ● Advocacy (Rachel Chatalbash)
     The Advocacy Subcommittee undertook several projects:
     ○ The Subcommittee began conversations with SAA regarding a memorandum of understanding, which we hope will be completed next year.
     ○ The Subcommittee created a form for the advocacy protocol, so that requests for advocacy assistance would be standardized, and developed protocols for transparency for any advocacy issues brought forward to RAAC.
     ○ The Subcommittee worked to increase communications about the protocol on social media and various listservs, and wrote to the editors for every regional that has a newsletter or blog about the protocol as the first steps toward increasing awareness on the regional level.
     ○ The Subcommittee undertook a project to evaluate if there any geographic advocacy gaps in the U.S., meaning places without regionals that would not know about our ability to provide advocacy assistance on the regional level, and determined that there is sufficient coverage.
     ○ The Subcommittee began a project with the SAA Issues and Advocacy Roundtable to further development of their advocacy toolkit, and make sure the needs of regional organizations are considered and addressed throughout the project.
     ○ Mid-way through the year, RAAC joined the Joint Task Force on Issues and Awareness, which includes representatives from SAA, CoSA, and NAGARA to increase communications about advocacy issues and to represent the regionals to these national professional groups.
○ RAAC undertook several advocacy-related actions over the course of the year, coordinating with regionals regarding local advocacy issues and lending support. The Advocacy Subcommittee assisted with these efforts.

○ Lastly, the RAAC co-chairs and the Subcommittee undertook an assessment of all RAAC members’ interest in joining the National Coalition for History at the Policy Board level, as a way to advocate for regionals and local issues at the national level. The majority of RAAC members supported this action, and we have commitments of $3,600 toward membership for two consecutive years. The Subcommittee hopes to raise the remaining $400 by January 2017.

● Disaster (Daria Labinsky)
  ○ The Subcommittee completed two of its goals this year. It refined the Disaster Planning and Response web page and added a “go-to” list for before and when disasters strike.
    http://www2.archivists.org/groups/regional-archival-associations-consortium-raac/go-to-list-before-and-when-disaster-strikes
  ○ It created a list of climate change resources for archives, libraries, and museums.

  ○ The other goals related to joining an oral history project with Project ARCC. Those goals have been tabled, because Project ARCC put its oral history plans on hold. The Subcommittee plans to incorporate these into the goals for 2016-2017.

● Education (Jennifer Brannock)
  ○ Jennifer Brannock thanked the Education Subcommittee for all of their work on the RAAC/SGA Symposium. Because of the time devoted to planning the Symposium, little time was left for other activities.

● Grants (Kristen Chinery)
  ○ The Grant Subcommittee focused on two projects this past year: continuing to develop the grant resource guide and putting the collaborative grants Symposium panel together.
  ○ Symposium: The Subcommittee will be sharing relevant information from the Symposium grant panel with the RAAC list.
  ○ Grant Resource Guide: The guide has grown to include 30 states. Due to the number of additions that started rolling in on a pretty consistent basis, the Subcommittee established a schedule for verifying existing grant data and posting additions to the website. The new Subcommittee members will be continuing this work as part of the new three-year plan.
  ○ Collection Match: The Subcommittee also continues to keep track of developments with the “Collection Match” project, which is a proposed web-based tool designed to match collection donations with appropriate collecting institutions. The project is still in the development phase, but
there’s been some progress in the past year in identifying a pilot institution (the Central New York Library Resources Council).
