

Accessioning, Acquisitions, and Appraisal Section Standing Rules Changes

At the most recent AA&A steering committee meeting, we agreed to put forward the following wording changes to the section's standing rules (wording changes underlined):

- I. Purpose. The purpose of the Accessioning, Acquisitions, and Appraisal Section of the Society of American Archivists (SAA) is to provide a forum for discussion of issues and interests pertaining to the accessioning, acquisition, and appraisal of public records, private papers, and other archival or manuscript collections. The Section also maintains the Archival Accessioning Best Practices and its current displayed format approved by the SAA Standards Committee in 2024.
- VIII. Subcommittees. D) The Best Practices Subcommittee will maintain the Archival Accessioning Best Practices.
