

Society of American Archivists, University of Washington Chapter

Annual Report

2015-2016

Mission

It shall be the purpose of this organization to explore and promote archives and archival preservation under the guidelines put forth by the Society of American Archivists.

Goals and Achievements

Following the work of the previous year's officers, SAA-UW's main goal was to raise awareness of the organization through hosting events, promoting connections, and providing resources. An e-mail listserv was created to better communicate event and other announcements, such as job and internship opportunities. For the second year in a row, we connected with the SAA student chapter at Western Washington University to attend their Canadian-American Archival Conference.

The incoming officers will continue the goal of increasing interaction with open meetings and activities with the greater Seattle archival community, and potentially helping WWU's chapter to host their annual conference.
